

Professional Treatment

- Treatment for professional use only.
- Outstanding results.
- Hair and skin regenerator.
- Boosts the stimulation, growth and strengthening of the bulb and hair.
- Balances the microbiome, regulates sebum production, soothes itching and lessens flaking.
- Supports homeostatic and angiogenic properties.
- Has antibacterial and antifungal properties.

1. DESCRIPTION:

TR10 PROFESSIONAL TREATMENT is a treatment for professional use only comprised of a concentrate of natural alpha hydroxy acids (TR10 NATURAL ACIDS) and an ultra concentrate of TR10 CAPILAR SOLUTION (TR10 CONCENTRATED TREATMENT).

Thanks to its keratoplastic effect, the concentrate of natural acids helps us dissolve the bonds between cells (intercellular cement) of the deepest basal layers of the epidermis, dilate the pores and hair follicles, as well as exfoliate the stratum corneum, getting the scalp ready for the application of TR10 CONCENTRATED TREATMENT to achieve exceptional results.

The formulation of TR10 CONCENTRATED TREATMENT contains the same active ingredients as TR10 CAPILAR SOLUTION, but it's ultra concentrated to enhance its benefits and results.

Following the guidelines of TR10 and its entire range of products, TR10 PROFESSIONAL TREATMENT has been formulated and created under the principles of Biocosmetics with 100% natural active ingredients.

2. EAETIOLOGY:

HAIR:

ALOPECIA: TR10 CAPILAR SOLUTION is indicated for the treatment of all kinds of non-scarring alopecia, aside from slowing down and delaying any scarring alopecia that is already irreversible

- ANDROGENIC ALOPECIA
- ALOPECIA AREATA
- ALOPECIA OR SEASONAL HAIR LOSS
- DEFICIENCY-RELATED ALOPECIA
- POSTPARTUM, TRAUMATIC, TOXIC, POST-FEBRILE, POSTOPERATIVE AND STRESS-INDUCED ALOPECIA,
- HAIR DISORDERS AND LACK OF VITALITY.

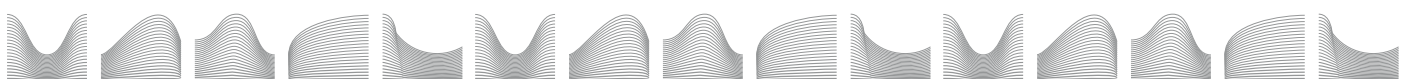

SKIN: TR10 CAPILAR SOLUTION delivers an effective solution to different skin problems that affect the scalp, which can lead to alopecia.

- EXCESS OIL (SEBORRHOEA).
- TAUTNESS AND TIGHTNESS.
- HYPERSENSITIVITY (Irritation, itching and pain).
- FLAKING PROCESSES (Pityriasis or dandruff, dermatitis, psoriasis, etc)
- INFLAMMATORY STATES.

Using TR10 PROFESSIONAL TREATMENT together with the other TR10 CAPILAR SOLUTION products offers better and faster results.

In alopecia areata, using TR10 PROFESSIONAL TREATMENT together with TR10 REGENERATING LOTION for home use has yielded spectacular results in less time.

The combined use of the entire TR10 CAPILAR SOLUTION range (lotion, shampoo, professional treatment, treatment cream and conditioner) is therefore recommended as its synergies substantially increase overall effectiveness.

3. HOW TO USE:

TR10 PROFESSIONAL TREATMENT consists of six sessions. We recommend spacing sessions one week apart. Based on the severity of the condition and its evolution, one, two or three courses of treatment (with six session each) can be carried out. There must be a gap of at most 15 days between the second and third courses.

4. INSTRUCTIONS FOR USE:

1. Wash using TR10 NATURAL BALANCING SHAMPOO.
2. Apply TR10 NATURAL ACIDS to the area to be treated on the scalp, leaving on for 7 to 10 minutes. Do not massage in.
IMPORTANT: The first time you apply TR10 Natural Acids, ensure to check the treated area for possible reactions. In the unlikely event of a reaction, immediately remove by rinsing with water.
3. After leaving it on for the recommended amount of time (never more than 10 minutes), rinse with plenty of water and towel dry.
4. Apply TR10 CONCENTRATED TREATMENT, spreading it all over the area to be treated, and massage in for it to absorb better and improve blood flow.
5. At the end of treatment, you can carry out the usual service (cutting, styling, drying, etc). Using styling products is not recommended as the treatment increases the hair density and volume.

Enhance the in-salon treatment by applying TR10 NATURAL BALANCING SHAMPOO and TR10 REGENERATING LOTION at home (supplementary home treatment), following the recommended guidelines.

5. PRESENTATION:

TR10 CAPILAR SOLUTION PROFESSIONAL TREATMENT comes in a box that contains:

- **1 x 17 ml syringe/vial** of TR10 NATURAL ACIDS (6 applications).
- **1 x 17 ml syringe/vial** of TR10 CONCENTRATED TREATMENT (6 applications).

Variations in colour may occur given that the product contains 100% naturally sourced ingredients.

6. WARNINGS:

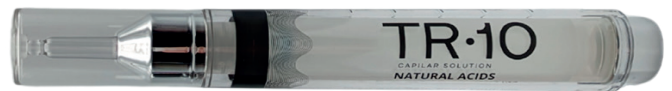

Do not swallow.
Keep out of reach of children.
Shake vigorously before using.
Store in a cool, dry place.

TR10 CAPILAR SOLUTION is based on and formulated under the principles of NATURAL BIOCOSMETICS:

- **100% NATURAL ACTIVE INGREDIENTS.**
- **SULPHATE FREE.**
- **PARABEN FREE.**
- **COLOURANT FREE.**
- **ALLERGEN FREE.**
- **WE DON'T TEST ON ANIMALS.**
- **NEXT-GENERATION FORMULATION.**

TR10 NATURAL ACIDS

- **Keratoplastic effect (intercellular “de-cementor”)**
- **Apply and smooth out onto the client’s head without massaging or rubbing it in.**
- **Rinse with plenty of water.**
- **17 ml syringe/vial. (6 sessions)**
- **PH of 3.8.**

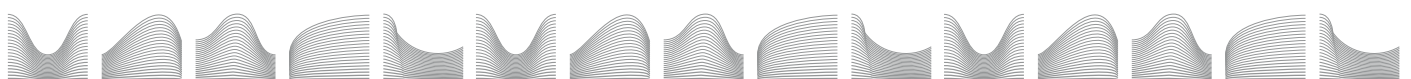

Professional cosmetic treatment composed of a concentrate of natural acids in a neutralised blend (pH of 3.8) of fruit acids following the criteria of maximum efficacy and safety of use.

Natural acids have an organic composition and contain the carboxyl function in their molecule, which characterises them as acids. They are adjacent to the hydroxyl group, which lends them the trait of alcohol, in the same molecule.

These acids have been used in beauty treatments for more than two millennia (Cleopatra’s sour milk bath, Roman women’s wine facials, and more recently, yogurt as a homemade beauty treatment).

Nowadays, there are alpha hydroxy acids obtained in concentrated form from natural active ingredients. Thanks to them, it’s possible to get reliable results on the skin and scalp.

1. INGREDIENTS:

Aqua, glycolic acid, lactic acid, ethoxydiglycol, sodium hydroxide, malic acid, tartaric acid, citric acid, hydroxyethylcellulose, benzyl alcohol, phenoxyethanol, potassium sorbate, parfum.

2. PRODUCT DATA SHEET:

The alpha hydroxy acids of TR10 NATURAL ACIDS have an agile format, with a synergistic and neutralised blend (pH of 3.8) of fruit acids with a 20% concentration. (Maximum pH values and concentrations authorised by the health authorities for non-medical cosmetic applications).

The alpha hydroxy acids of TR10 NATURAL ACIDS are of natural origin and have the following properties and relative proportions:

- **GLYCOLIC ACID 43%:** It is obtained from sugar cane and green grape. It is the simplest acid as is the lightest and smallest molecule, meaning it penetrates more easily.
- **LACTIC ACID 38%:** Found in sour milk and yogurt. With a molecular weight somewhat greater than that of glycolic acid. It's a basic component of the skin's natural moisturising factor.
- **MALIC ACID 7%:** Mainly obtained from sour and/or green apples. They can boost the skin's metabolism.
- **TARTARIC ACID 6%:** Found in ripe grapes and mature wines. It is an exceptional antioxidant and natural exfoliant.
- **CITRIC ACID 6%:** Found in citrus fruits (lemon, orange, grapefruit, lime, etc), it has the highest molecular weight and has natural preservative and antioxidant properties.

3. MECHANISMS OF ACTION:

It effectively exfoliates worn outer layers of the stratum corneum of the epidermis. Its main property is not keratolytic; it's not based on the decomposition of keratin in the corneocytes, but rather on a keratoplastic effect of dissolving the cement holding them together, promoting the dilation of the pores and hair follicles, improving the application of TR10 CONCENTRATED TREATMENT.

The outcome is an extraordinary renewal of the surface cells of the scalp, boosting its metabolism and renewal, giving rise to a clear rejuvenating action. TR10 NATURAL ACIDS promotes the synthesis of mucopolysaccharides, collagen, elastin and reticulin.

Due to its exfoliating action, it removes pilosebaceous plugs that prevents proper drainage of the pilosebaceous unit and promotes the renewal of the epidermis.

4. PRECAUTIONS:

- It shouldn't be applied on the same day a technical hair service (hair colouring, lightening, straightening, perm, etc) is done. Leave a 24- to 48-hour-gap between the two services.
- The first time you apply TR 10 Natural Acids directly or in combination with TR10 SCALP TREATMENT CREAM, it's a good idea to keep a close eye on the treated area for any possible reactions. In the unlikely event of a reaction, immediately remove by rinsing with water.
- For clients with allergies or intolerances, it's advisable to do a patch test on the area to be treated.

TR10 CONCENTRATED TREATMENT

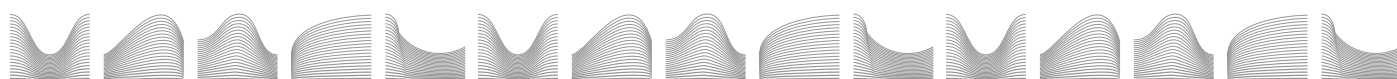

- **We recommend doing an activating massage.**
- **1 x 17 ml syringe/vial (6 sessions).**
- **PH of 6.**

Topical preparation in the form of a gel, obtained after the ultra concentration of TR10 CAPILAR SOLUTION, with a natural composition. It is indicated for the treatment of all kinds of hair problems. Exceptional capillary restorer that stimulates and stabilises hair follicles in a degenerative stage, preventing the bulb from weakening.

1. INGREDIENTS:

Equisetum Arvense Extract, Aqua, Isopropyl Alcohol, Glycerin, Arnica Montana Flower Extract, Tea-hydroiodide, Azelaic Acid, Hydroxyethylcellulose, Potassium Sorbate, Panthenol, Allantoin, Benzyl Alcohol, Menthol, Lactococcus Ferment Lysate, Mentha Piperita Oil, Phenoxyethanol, Sodium Pca, Sodium Lactate, Arginine, Aspartic Acid, Pca, Glycine, Alanine, Serine, Valine, Proline, Threonine, Isoleucine, Sodium Benzoate, Phenylalanine, Histidine, Sodium Hyaluronate.

2. PRODUCT DATA SHEET:

- **TR10 REGENERATING COMPLEX:** Next-generation cocktail of active ingredients with regenerating, balancing, moisturising, and nourishing properties based on the most recent research findings on the scalp, hair and hair follicle. Its action is based on the following main active ingredients:

- **PRORENEW COMPLEX:** Natural and vegan probiotic active ingredient obtained through biotechnology from a lactococcus lactis lysate whose main function is to balance the skin microbiome.

- **AZELAIC ACID:** It exerts a keratolytic effect, which improves the absorption of the other active ingredients, and is a potent inhibitor of the 5 α -reductase enzyme.

- **PRODEW 500:** Deeply moisturises scalp. It enhances the penetration of the other ingredients of TR10 CAPILAR SOLUTION.

It's composed of the following active ingredients:

- » **ARGININE:** It's an essential amino acid that's a component of proteins, including keratin. It also has antifungal, antibacterial, healing and anti-inflammatory properties.

- » **SODIUM LACTATE:** Its main function is to keep the skin's pH balanced and to protect it from external factors such as pathogenic microorganisms and pollutants.

- » **COMBINATION OF AMINO ACIDS:** It's involved in maintaining and retaining optimal moisture

levels in the scalp and hair.

- **MINT ESSENTIAL OIL:** It boosts circulation and exerts an antibacterial and antifungal effect.

- **ARNICA EXTRACT:** With its anti-inflammatory and circulatory properties, it improves scalp health.

- **TEA-HYDROIDIDE:** It exerts a powerful antifungal action against fungi that can damage the hair follicles and scalp. It's actively involved in hair growth and resistance.

- **EQUISETUM:** It has the following properties: elasticising, astringent, sebostatic, anti-radical and anti-pollution, as well as remineralising.

- **LMW (Low Molecular Weight 300 KD) HYALURONIC ACID:** Its main function is to keep skin hydrated and prevent transepidermal water loss (TEWL) thanks to its amazing capacity to retain water and maintain homeostatic balance. Thanks to its angiogenic properties, it also stimulates blood vessel growth.

- **ALPANTHA:** Natural molecule formed by a synergy blend of:

- **PANTHENOL:** It promotes cell regeneration and locks in moisture, improving hair elasticity and softness.

- **ALLANTOIN:** It has a gentle keratolytic effect on the scalp. It maintains moisture levels. It reduces the risk of hair breakage after combing by between 30% and 40%. It repairs hair damaged by chemical and/or mechanical treatments.
